MONROE DOCTRINE.

President of Nicaragua Recommends Such Principles.

CANAL IS ADVOCATED

He Says the Building of This Great Watway Will Bring the Two Countries Nearer and Advance Nicaragua.

New York, Aug. 5.—General Santose Zelaya, president of Nicaragua, has touched a popular chord in his message to the Nicaragua congress, just assembled by advocating the Monroe doctrine and declaring his anxiety for the construction of the Nicaraguan canal by the United States, says the Managua correspondent of the Journal and Advertiser.

"At the head of our continent appears," he said, "the grand republic of the United States with the Monroe doctrine on its forehead, the grand international principle that forbids European colonization on American soil. With that government, the friend and protector of the weak nations of our continent, we maintain, as is natural, close and cordial relations.

"We have, moreover, with the great American republic, the common interest of our respective lands in the opening of the inter-oceanic canal through our territory, which to her means the realization of her dear purpose to occupy among the nations of the earth her proper position as a maritime power of the first-class, and to us means the benefits which we will obtain by our future progress.

"If the realization of this event is as it promises, Nicaragua and the United States will come closer and travel united in the future because of this wonderful link that entwines in a positive way their national interests."

TEXAS NEWS.

Threatened With Dynamite.

Rockdale, Tex., Aug. 5.—The cashier of the First National bank of Rockdale has received a letter signed "Four experts," demanding that he put a certain sum of money at a certain place or they would proceed to get the money if they had to dynamite the building. They said they had the ability to carry out their threats. The town is under arms waiting to give them a warm reception if they should attempt to carry out their threats.

Badly Injured.

Marshall Tex., Aug. 5.—Mat McMackin, an employe of the Texas and Pacific railway, while at work in the new shops Saturday evening, handling a large crosscut saw, let it slip out of his hands. The saw fell on his left foot, badly lacerating it.

Surveying Tobacco Land.

Willis, Tex., Aug. 5.—Secretary of Agriculture Wilson is having a thorough soil survey made of the lands around Willis for the purpose of encouraging and promoting the growth of tobacco in this section on a large scale.

Run Over and Killed.

Chillicothe, Tex., Aug. 5.—Little Paschal Hunt, the 7-year-old son of W. H. Hunt of this place, was run over by a farm wagon loaded with grain on W. A. Laird's ranch south of here, receiving injuries from which he died about two hours later.

Foreman Fatally Injured.

Bryan, Tex., Aug. 5.—While unloading a car of ties William Davidson, section foreman on the Houston and Texas Central, below College Station, was fatally injured by a number of ties falling upon him. He died as the result of internal hemorrhages.

Shot an Actress and Himself.

Omaha, Aug. 5.—Mrs. Millie Light-hawk, an actress, known as Millie Allen, was shot and fatally wounded at a Capitol avenue boarding house Sunday by Thad Brookie, a paper hanger, who then shot himself dead. Brookie had been much in love with Mrs. Light-hawk, who had refused to accept his attentions.

Archbishop Keane Returns.

New York, Aug. 4.—Archbishop Keane, of Dubuque, former rector of the Catholic university, who received his new dignity in Rome in April arrived on the steamship Celtic Sunday and went to the Fifth Avenue hotel where he had a long talk with Archbishop Ireland and later left for Chicago.

Smallpox Stamped Out.

Greeville, Tex., Aug. 5.—The two negroes who were sick with smallpox at Neyland have been released, and for the first time in several months there are no other cases in the county, the disease having been completely stamped out.

Negro Kills an Officer.

Charlotte, N. C., Aug. 5.—A special from Shelby, N. C., says that Chief of Police Jones of that place was shot and

killed by Jim Lowery, a negro, while attempting the arrest of Lowery. The charge against Lowery was selling whisky without license.

Mistake in Cotton Report.

New York, Aug. 5.—In the special report of the Journal of Commerce on the condition of cotton sent out July 31 an error made it appear that the decline was 17 points instead of 1.7, as given by the Journal of Commerce; 1.7 points decline is the correct figure.

AN INSANE MAN.

He Kills One Person, Wounds Another and Himself Is Killed.

Moscow, Ida., Aug. 5.—Dr. W. W. Watkins was shot and instantly killed here Sunday while riding in his buggy in the streets of Moscow; George Creighton, a prominent merchant, was shot through the arm and Deputy Sheriff Cool was shot in the shoulder and thigh by A. Steffen, a resident of Moscow, who, it is believed, became suddenly insane. Steffen was afterward killed.

Steffen was on horseback when he shot Watkins and Creighton. He was at once pursued by the deputy sheriff who gathered a large posse. As he neared his house about two miles southeast of town his horse was shot from under him. Steffen took refuge in his house, which was immediately surrounded. Here, armed with a rifle, he kept them at a distance. The posse kept growing in numbers and increasing their armament and a fusillade was kept up from every side of the structure, the posse hiding in a wheat field.

Steffen would occasionally appear at the windows, fire a shot and disappear. About 11 o'clock he appeared at the kitchen window, evidently intending to pick off some one in a party of four who had crawled up to an advanced position. A volley from rifles killed him instantly.

Victory for Independent Phones.

Aurora, Ill., Aug. 5.—A supreme effort of the Chicago Telephone company to crush out all opposition and hold the field to itself by seeking to enjoin any other company from erecting poles and stringing wires in any streets already occupied by the Chicago company was defeated when Judge George W. Brown, of the Kane county circuit court, announced his decision dissolving the injunction secured more than a year ago by the Chicago company. The case is the first of its kind to be tried in this county and will have effect wherever the Bell lessees and the independent companies come into opposition.

Two Trainmen Killed.

Lockport, N. Y., Aug. 5.—A Pan-American special, heavily loaded and a regular passenger train collided a few miles east of this city Sunday on the New York Central. Thomas Hyland, an engineer, and George Webb, a trainman, were killed and a fireman was severely injured. The passengers on both trains were thrown into a panic by the shock, but none were seriously injured. A mistake in carrying out meeting orders caused the collision.

Packing Plant Burned.

Dallas, Aug. 5.—The plant of the Max Hahn Packing company, valued with its contents at about \$60,000, was destroyed by fire Sunday night. Nolan Brothers, wholesale butchers, also lost a large quantity of dressed meat in the fire. The packinghouse was situated on the line of the Missouri, Kansas and Texas railway outside of the fire limits of the city. The packery was a model plant and insured for about one-third of the loss.

Invaders Defeated.

Caracas, Venezuela, Aug. 5.—The Venezuela government announces that a force of invaders under General Rangel Gardias, including 22 battalions of the Colombian army, was repulsed by the government troops and compelled to fall back across the frontier after 28 hours fighting on July 28 and 29. It is officially asserted that the invaders lost 900 men, the government troops losing 300.

Three Towns Occupied.

Manila, Aug. 5.—The towns of Calapan, Namjan and Pola on the northeast coast of the island of Mindoro, were occupied by a battalion of the Thirteenth volunteer infantry and Macabees scouts after a slight resistance. The insurgent numbering 250 fled into the interior. Their commander, Howard, who is a deserter, is hiding in the mountains and the Americans are in pursuit.

Through a Bridge.

West Superior, Wis., Aug. 5.—The first ore train over the new Stonybrook cutoff of the Eastern Minnesota railway went through the bridge over the St. Louis river just above Stonybrook Sunday. Jerry Orrill, head brakemen, was killed and four trainmen were seriously hurt. The engine and 16 cars went through the bridge into the St. Louis river.

Ex-Congressman Blount Ill.

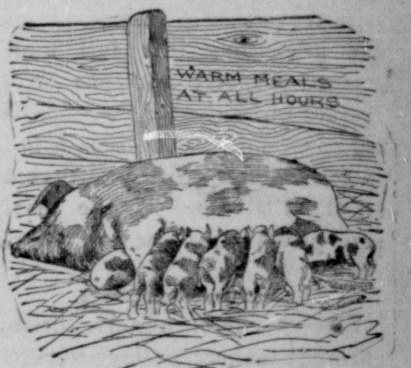

Macon, Ga., Aug. 5.—News has been received in this city that ex-Congressman J. H. Blount, who represented this district in congress for 20 years and who was sent to Hawaii by President Cleveland as commissioner at the time of the revolution in the island, had suffered a stroke of paralysis and is in a critical condition at his country home.

Good roads are worth more to any county or town than a railroad, if it has one railroad to begin with.—Huntsville Post.

Wonder how many sets of Madison county baby triplets will be at the reunion. Hardly more than three sets, we suppose.—Meteor.

How many would it take to satisfy you, Mr. Turner?

The strikers are now organizing military companies in the West Virginia manufacturing centers, and propose to protect property from mob violence. This is something new in strike history, and may turn out to be dangerous.

There will be a very good acreage in onions this fall and if planted properly and put on the market early the crop will prove a big paying one. The idea is to get on the market early. Late crops get the little end of the market and prices are low.—Huntsville Post.

Steel workers, miners, firemen, garment makers, pottery workmen, cigar makers, streetcar employees, and a few other minor divisions of working people all striking at once. It looks like this year will be a record-breaker yet. And the end is not in sight. It may be that it has hardly begun.

The railroad commission is in the middle of one of the liveliest contests ever fought out before it in the way of ratemaking. This is the controversy over oil rates. The lignite miners and the railroad managers are fighting any reduction in rates, while the oil producers and fuel consumers are pulling for a reduction. Ex-Attorney-General Crane appears in the interest of reducing oil rates. General Crane says Texas will be the greatest manufacturing state in the union in ten years from now if oil rates can be reduced.

NEEDS OF MANILA.

Electric Cars and Lights and American Stores Could Do Well.

New York, Aug. 5.—Manila is a city of 250,000 persons, with practically no street car service. An electric street car line and lighting plant, an American department store, handling American goods, and a good hotel are the city's most crying needs at present, and all of these enterprises would pay enormous profits. Nor, contrary to the prevailing impression, is there any hindrance to the formation of stock companies to do business in the Philippines, says the Manila correspondent of Tribune. The following is an extract from an opinion on this subject by the leading attorneys at Manila:

"We are of the opinion that a corporation duly organized in any of the states of the United States in accordance with the laws of such state, can engage here in the business authorized in its articles (such articles should provide for the operation of the corporation in the Philippines) and that such corporation would have the undoubted right to acquire and hold property of all descriptions, including real estate in the Philippine islands."

BEYOND CONTROL.

Jersey Mines in Pennsylvania Will Be Given up to the Flames.

Wilkesbarre, Aug. 5.—The Delaware, Lackawanna and Western Coal company will probably have to abandon its Jersey mine at Plymouth to the fierce fire which has raged in it for months. The loss will be several hundred thousand dollars. Although skillful fire fighters have endeavored to stop the spread of the fire, they have been driven back. They are now compelled to work from the outside, and are doing little good.

It is practically impossible to flood the mine, because it is on a high level on the mountain side, while connected with it, and on the lower levels of the valley below, are the Nottingham, Avondale and No. 6 collieries, all of which would have to be filled with water before the fire in the mountain levels of the Jersey could be reached. This would involve a loss as great as the value of the Jersey mine. The fire will be allowed to burn itself out. This will probably take 50 years.

TARIFF LEGISLATION.

Senator Cullom Says Congress Will Not Take up This Subject.

Chicago, Aug. 5.—After a visit to President McKinley at Canton, Senator Cullom says there is not likely to be any general tariff legislation next winter, but some of the pending commercial treaties ought to pass the senate. The senator also talked of the government policy in other lines. Senator Cullom returned home Sunday evening and went at once to Highland Park, where he is spending the summer. Speaking of the action likely to be taken by congress next session, Senator Cullom said:

"We shall have to enact some legislation regarding the Philippines, but not much I think. Porto Rico is now all disposed of and there is nothing to do for it. As far as Cuba is concerned, it has accepted the American proposals and we have nothing more to do than to let it alone and allow it to work out its own salvation. From all information I can get final annexation to this country will grow stronger and stronger as Cubans find their neighbors in Porto Rico enjoying the benefits of free trade with this country, which they are debarred from."

Water-Pierce Affidavit.

Austin, Aug. 5.—The secretary of state received the anti-trust affidavit of the Waters-Pierce Oil company, duly executed on July 3. With the affidavit was a letter from J. B. Johnson, its general attorney, stating that it was clearly an oversight. The letter and affidavit were transmitted to Attorney General Bell. That official issued of the city and no action will be taken until he returns. It is believed the matter will be amicably settled.

The Celtic's Maiden Trip.

New York, Aug. 5.—The biggest ship in the world, the Celtic, of the White Star line, reached her dock here Sunday on her maiden voyage. Her time from Liverpool was 8 days and 46 minutes. As she is berthed her steering deck is higher than the entrance to the pier. After she was warped in the iron doors aft the cabin had to be opened to land the passengers. The sundeck towers above the roof of the piers. Three hundred and forty-five cabin and 268 steerage passengers came over on the Celtic.

Negro Electrocutted.

Ossining, N. Y., Aug. 5.—Benjamin Pugh, the negro who murdered John Tiegart, a waiter in a restaurant in Brooklyn, on Aug. 30 last year, was put to death in an electric chair in Sing Sing prison today. Three shocks were administered before he was pronounced dead.

NEWS IN BRIEF.

British torpedo boat destroyer Viper ran upon a rock in the English channel and completely wrecked. No lives lost. Newton Lanier of Port Mill, S. C., was drugged and robbed at Charlotte, N. C. He died from the effect of the knock out drops.

Mrs. Dick Chatham died at Gainesville, Ga., of hydrophobia. She was bitten by a pet dog.

John T. Isonogle, a veteran of the civil war, died Saturday at his home at Lincoln, Ill., aged 66 years.

LaFayette Sweet, aged 77 years, was killed by a train at Litchfield, Ill., while crossing the Wabash railroad.

ATE DEAD COMPANION.

Horrible Tale of the Fate of Four Miners in Alaska.

Port Townsend, Wash., Aug. 5.—A story of death from starvation in the Agiakuk mining district was brought from Nome by passengers on steamer Centennial, and as a result of 43 days of unparalleled hardship Geo. Dean, a miner, is dead, and his two companions Jack Houston and Joseph C. Thiery, are at death's door. Houston will probably recover, but there is little hope that Thiery's life will be saved.

Added to the story of starvation is a horrible tale that in their desperation Houston and Thiery severed the thigh of their dead companion from his body and were cooking it when help arrived and saved them from practicing cannibalism.

The men had been in Good Hope country prospecting. On June 7 they started for Nome by way of Agiakuk river. Before they reached Teller City provisions gave out and hunger compelled them to eat grass, birds' eggs and anything they could find. Dean left a letter partly written bidding his family, who lived in Canton, O., farewell. Thiery was from Davenport, Ia., and Houston was formerly mate on the Yukon river boat Sovereign.

FEUD IN WYOMING.

Another Man Shot Down and the Country Is Much Excited.

Cheyenne, Wyo., Aug. 5.—Another scene has been enacted in the feud which has for its participants certain residents in the neighborhood of Iron Mountain. Nels P. Nickel was brought to the hospital in this city suffering from three gunshot wounds, the result of an attack, he says, made upon him in his alfalfa field. He says three men began shooting at him as he was walking along, and being unarmed he turned and fled. During his retreat more than a dozen shots were fired at him, three of which took effect, and as he neared his home, fell to the ground exhausted. His brother-in-law, hearing his calls for help, came to where he lay and carried him into the house. Nickel was then brought to Cheyenne and placed in a hospital. He is in a serious condition.

He charges three neighbors of the same family with the assault and warrants have been issued for their arrest. A posse will serve them and, contemplating a stubborn resistance, are preparing to go well armed. Much excitement prevails over the affair.

Three weeks ago the 14-year-old son of Nels Nickel was assaulted while going from his ranch home to Iron Mountain.

Long Electric Line.

New York, Aug. 5.—Steps have been taken to build a through trolley line from this city to Boston. The first step was the foundation at White Plains, N. Y., of the New York and Stamford railway company, which is made of the consolidation of the Richmond and Port Chester Electric company. The company is now building the road to Greenwich, and as soon as the line is completed the road will be extended to Stamford and to Boston. The application of the New York and Stamford Railway company for the right of way for an electric road service with the terminal in Boston is expected to come up at once before the New York state railroad commission.

Fight Against Gambling.

New York, Aug. 5.—There is much speculation going on regarding the outcome of the fight against gambling, says the Saratoga correspondent of The World. The arrest of Richard A. Canfield, proprietor of the famous club house at Saratoga, is looked upon as the beginning of the long threatened attack of the poolroom men against the club houses. The closing up of a poolroom by local authorities is regarded as the direct cause of the fight against Canfield and his club house. It is announced the pool men will spend \$50,000 to stop gambling at Saratoga unless the pool rooms are permitted to be kept open.

British Soldiers Not Paid.

London, Aug. 5.—There cannot be any doubt that in several instances soldiers who have returned from the war have not yet received full pay for their services and it is probable that much hardship has been occasioned by the dilatoriness of the war office authorities in this respect. Mr. Broderick has expressed his regret that there should have been lack of promptness in settling the claims of returned troops, but he is powerless in the hands of permanent officials. He has, however, succeeded in appointing a commission, with the object of examining all claims and the sooner it gets to work the better for the government.

Rain About Dallas.

Dallas, Aug. 5.—The first rain of much consequence in Dallas and vicinity since last May fell this morning. The rainfall appears to have been general over an area extending approximately 100 miles in all directions from this city except southward, where the distance reached was about 50 miles. This section of the great cotton belt has had the least rain this season and the drought has been most severe. Much good is hoped for.

Tired of Life.

New York, Aug. 5.—Louis Helpen, a young man who about three months ago tried to jump from the Brooklyn bridge, committed suicide by swallowing carbolic acid and then throwing himself from the fourth story of a tenement house. Young Helpen came to this country about 18 months ago from Johannesburg, South Africa. In his room he left a note saying he was tired of life.

Health and Beauty

For generations women have been taught that "beauty is only skin deep," but, like many proverbs, that will not stand. Beauty is blood deep. There can be no beauty without health. Our grandmothers lived closer to nature than we do, and they were so sheltered by their home life that health and beauty were theirs naturally. Skin foods, freckle lotions and face bleaches were unknown commodities. But there has been a great change in the life of women since then. With broader education and larger opportunities, she has developed mentally at the expense of her health. From the quiet duties of home she has gone forth until now we find her in many avocations of life, which prove too great a tax on her vitality. How sad it is to see the cheek robbed of its color and the eye of its fire. These symptoms nearly always show derangements in the delicate feminine organism. They don't call for bleaches or paints or powders, but for a remedy that will make the afflicted organs strong and well. Wine of Cardui is just such a remedy. Women broken in health and spirit have been made healthy and happy by this Wine. No one proven a blessing to other women and will not disappoint you. It brings that buoyancy of spirit, elasticity of step and lightness of heart which is the corner stone of beauty. A healthy woman is always beautiful.

I feel that I must say a few words in praise of the Ladies' greatest friend, Wine of Cardui. It is the most wonderful remedy that I ever tried. I have been a sufferer for years, at times being confined to my bed two or three days each month. A friend recommended Wine of Cardui, and since I have taken it I have been greatly relieved. I intend to continue to take it, for I know it is as recommended. I will use every effort to get others to use it. Mrs. MARY E. COOLEY.

Mr. and Mrs. John B. Hines and their baby, which has been dangerously ill, returned from Greenville Saturday night accompanied by Mr. and Mrs. J. T. Hines and Dr. H. L. Fountain. The little one was reported better yesterday. The Eagle is glad to report that Mr. John B. Hines has returned with his family to make his home in Bryan again. He will assume his former position as bookkeeper for the Bryan Oil and Cotton Company.

Prof. Davis of the summer normal faculty called attention yesterday to an error of the Eagle in accidentally omitting the name of Dr. J. L. Fountain from the list of those mentioned in the resolutions of thanks adopted by the normal. Dr. Fountain's lectures and demonstrations by means of his X-ray machine were much appreciated by the teachers.

Mr. Claude V. Birkhead of Waco, appointed receiver for the R. J. Ford stock of Groceries in voluntary bankruptcy, on yesterday morning at 10 o'clock sold the stock of goods at 33½ cents on the dollar and the fixtures at 35 cents on the dollar to A. D. McConico. The whole invoiced about \$800.00. The safe was sold to J. S. Ford for \$63.00.

J. W. Coulter is making some improvements in his dry goods house to make more room for shelving which will be extended to the ceiling on each side of the building and running ladders put in.

C. G. Crofoot of Grimes county was here yesterday exhibiting a large handsome chair made from highly polished horns. It was his own handiwork and attracted no little attention.

Where do You Get Off?

It is a wise thing to know when to get off a train, but prudence would suggest that you get off when the train is standing still, as you would no doubt be worth more to your family by doing so.

Now let us help you to decide where to get off. If you are preparing to take your summer vacation, why not get off at Galveston, La Porte, Seabrook or Port Lavaca. Our trains all stop at Houston and make close connections with G. H. & N. and N. Y. T. & M. railways for points mentioned, and with the San Antonio and Aransas Pass Railway for Rockport, Corpus Christi and Aransas Pass.

All the hotels at these points are modern in their appointments and you will find the sun bathing, boating and fishing, just what you need in the way of relaxation. Local Agents of the Houston & Texas Central Railroad will be glad to quote you rates, or you should write to

AUSTIN BANK CLOSED

The First National in the Hands of a Bank Examiner.

STATE DEPOSITORY.

The State Treasurer and Secretary of State Kept Deposits in That Institution—No Statement of Assets and Liabilities.

Austin, Aug. 5.—As a result of the failure of the First National bank here yesterday afternoon, the private banking firm of James H. Raymond & Co., suspended payments this morning. The institution is closely identified with the First National and was badly crippled on account of the suspension of the First National.

State Treasurer Robbins states that the treasury department had over \$300,000 in cash and securities in the First National bank and last Saturday the bank turned over \$32,000 to the state treasury. Mr. Robbins had no idea the bank was on the brink of a financial disaster. He made application at the bank for a condition of affairs, but J. M. Logan, the inspector who is in charge, declined to give out anything. Robbins' bond of \$75,000 and his bondsmen are liable for any shortage that may result to the state.

The state department has about \$50,000 on deposit and Secretary of State Tod's bond of \$25,000 is also liable.

The attempted suicide of H. Pfafflin, cashier of the defunct bank, has added much to the condition of affairs. He cut his wrists with a razor.

Austin, Aug. 5.—The following typewritten notice was posted on the door of the First National bank here at 4 p. m. Sunday:

"This bank is closed and is in my hands as agents pending the arrival of William Lyrrick, special examiner, who has been appointed temporary receiver by the comptroller of currency.

"J. M. Logan,
"National Bank Examiner."

The news of the posting of this notice quickly spread and many flocked to the bank and read it for themselves. Very little can be learned as to the condition of the bank.

W. B. Wortham, former state treasurer, who is president of the institution, left here two weeks ago for New York City and has not yet returned. H. Pfafflin, the cashier, has been at home sick for several days.

Bank Examiner Logan declines to make a public statement concerning the bank's affairs at this time. There are a number of rumors in circulation, but none have as yet been verified.

The bank was the depository of the state treasurer and secretary of state. Treasurer John W. Robbins declined to state the amount the state had on deposit, but it is not thought to be large. It is said that there is about \$400,000 available with which to pay depositors.

First National Reported Insolvent.

Washington, Aug. 5.—The comptroller of currency has appointed Special Examiner W. L. Zerkes receiver of the First National bank of Austin, Tex. The bank was closed upon report of National Bank Examiner J. M. Logan, who reported it insolvent.

Condition of Cotton.

Washington, Aug. 5.—The monthly report of the statistical department of agriculture shows the average condition of cotton on July 25 to have been 77.2, compared with 81.1 June 25, 76 on Aug. 1, 1900, 84 on Aug. 1, 1899, and a ten-year average of 84. There was improvement of conditions during July amounting to 6 points in Georgia, 5 points in South Carolina, 2 in Alabama and Mississippi and 8 in Virginia. On the other hand, there was a decline of 19 points in Missouri, 15 in Arkansas and Tennessee, 13 in Oklahoma and Indian Territory, 12 in Texas, 7 in Florida, 4 in North Carolina and 2 in Louisiana.

Situation at San Francisco.

San Francisco, Aug. 5.—Whether the local labor trouble is to be terminated or whether it is to be extended to other unions and possibly to other coast cities will be determined in a day or two. The directors of the Employers' association are to meet then and decide on their final position. Should they decide to make no concessions the union leaders assert that they will issue orders for extreme measures.

Killed by an Electric Car.

Montgomery, Ala., Aug. 5.—Miss Caroline Jones, daughter of ex-Governor Thomas G. Jones, was ground to death in a street car accident here. Gov. Jones was a helpless witness to her death. Miss Jones had left her father on the veranda of their home and had started across the street and in crossing the car track was struck by a car and dragged to death under the wheels.

Boer Commandant Shot.

Bloemfontein, Aug. 5.—Commandant Fromeman, son of Commandant Fromeman, who is alleged, shot a peace envoy named Morgendael, has been shot and killed near Winburg after an exciting chase. Important papers were found in his pockets.

The British captured a Boer envoy of 70 wagons near Boshoff, Orange River Colony.

Empress Frederick Dead.

Cronberg, Aug. 5.—Empress Frederick died this morning after a long illness.

FIGHT TO A FINISH.

Union Workmen and Steel Corporation in a Bitter Struggle.

Pittsburg, Aug. 5.—It is now a fight to a finish between the billion-dollar steel trust and organized labor. Mr. Shaffer says he is ready to employ every peaceable means within the power of man to win a victory. No quarter is to be given and none will be asked. The entire management of the battle has been placed in the hands of President Shaffer. He has absolute power to call out every man who is connected with the Amalgamation association and he intends to do it. He is satisfied with the progress of the fight to date.

President Shaffer, of the Amalgamated Association of Iron, Steel and Tin workers, upon his return Sunday night from the fruitless conference with J. Pierpont Morgan and others in New York, said:

"Within a week every union man and every union man at heart in the employ of the United States Steel Corporation will be asked to join in the strike now being waged by the Amalgamated association. We must settle whether unionism is to stand or fall.

"There will be no more conferences with the United States Steel Corporation unless the meeting is asked for by the officials of the corporation. The Amalgamated association will not request a peace meeting."

"It will be a fight to a finish. No quarter will be given. We are prepared to spend all the money and time necessary to wipe out Amalgamated Association in all our mills."

This was the message that came over the wires from New York to local officials of the United States Steel Corporation here. Two messages came. The first stated that the conference had adjourned between the workers and Mr. Morgan and after receiving his ultimatum decision in the matter in dispute. An hour after this time a second message came to Pittsburg announcing to the steel officials here that the executive board had decided that they would not accept Mr. Morgan's terms.

The second message contained the statement also that appears above. Some of the officials heard the message with misgivings, others with unconcealed satisfaction. One of the officials left his office declaring he was glad of it. The fight would surely be carried to a finish and the corporation would once for all be freed from the influence of the union men.

SPECULATION RIFE

The Next Turn in the Strike Is Watched With Much Interest.

Pittsburg, Aug. 5.—Now that the suspense induced by the uncertainty of the outcome in the strike negotiations is over, there is less excitement here than last week and looking matters squarely in the face. Speculation is now rife as to when President Shaffer will issue an order for a general strike of all the Amalgamated men employed in the mills of the United States Steel Corporation. Doubt is expressed in some quarters if the strike will spread farther. It is suggested that the employees of the Federal Steel company, the National Steel company and the National Tube company are at the present the strikers' main source of revenue and to call them out would weaken the association in the fight by depriving it of funds necessary to carry on the struggle. Another reason given was that the Amalgamation association having signed contracts with all these companies for one year beginning with July 1, 1901, would, by violating these contracts, give Morgan and his associates trump cards they would not hesitate to use to the best advantage.

An intimation has been made there is still hope of ending the strike soon, and this is by the return of men at Painter, Lindsay and McCutcheon and Clark mills. These mills were non-union last year. The men went out when the strike was ordered and they are now members of the Amalgamated association in efforts to secure an adjustment of the strike, however, their status has been an embarrassing factor. It is said if these men desire to go to work they see no objection by the association. The immediate effect will be to eliminate them from consideration of any basis of settlement. Such a course would leave the Amalgamated officials in a position to accept Morgan's terms with honor.

The strike, though but begun, is already being felt in Pittsburg. Many leading business houses have found business dropping off so as to make the dismissal of clerks imperative. One department store last Saturday laid off 25 girls and at the same time gave notice that if the strike was not settled by next Saturday it likely would be necessary to lay off more. Finances have also suffered. On two days last week the clearing house reports showed a decrease compared with last year. There were only two days of the year whose clearings did not exceed figures of corresponding day's last year.

Organizing Military Branch.

Wheeling, W. Va., Aug. 5.—The organization of the first military company by a labor organization was put under way Saturday night by Crescent lodge, Amalgamated association and so popular is the plan that the members of labor unions by the hundred are discussing it favorably, and the indications are that a very large percentage of Wheeling's union labor will soon be under military discipline. The two full companies formed in Crescent lodge will not be in any way controlled by the state, but will be as independent as are military companies of secret and religious organizations.

MONROE DOCTRINE.

President of Nicaragua Recommends Such Principles.

CANAL IS ADVOCATED

He Says the Building of This Great Waterway Will Bring the Two Countries Nearer and Advance Nicaragua.

New York, Aug. 5.—General Santosa Zelaya, president of Nicaragua, has touched a popular chord in his message to the Nicaragua congress, just assembled by advocating the Monroe doctrine and declaring his anxiety for the construction of the Nicaraguan canal by the United States, says the Managua correspondent of the Journal and Advertiser.

"At the head of our continent appears," he said, "the grand republic of the United States with the Monroe doctrine on its forehead, the grand international principle that forbids European colonization on American soil. With that government, the friend and protector of the weak nations of our continent, we maintain, as is natural, close and cordial relations.

"We have, moreover, with the great American republic, the common interest of our respective lands in the opening of the inter-oceanic canal through our territory, which to her means the realization of her dear purpose to occupy among the nations of the earth her proper position as a maritime power of the first-class, and to us means the benefits which we will obtain by our future progress.

"If the realization of this event is as it promises, Nicaragua and the United States will come closer and travel united in the future because of this wonderful link that entwines in a positive way their national interests."

TEXAS NEWS.

Threatened With Dynamite.

Rockdale, Tex., Aug. 5.—The cashier of the First National bank of Rockdale has received a letter signed "Four experts," demanding that he put a certain sum of money at a certain place or they would proceed to get the money if they had to dynamite the building. They said they had the ability to carry out their threats. The town is under arms waiting to give them a warm reception if they should attempt to carry out their threats.

Willis, Tex., Aug. 5.—Secretary of Agriculture Wilson is having a thorough soil survey made of the lands around Willis for the purpose of encouraging and promoting the growth of tobacco in this section on a large scale.

Run Over and Killed.

Chillicothe, Tex., Aug. 5.—Little Paschal Hunt, the 7-year-old son of W. H. Hunt of this place, was run over by a farm wagon loaded with grain on W. A. Laird's ranch south of here, receiving injuries from which he died about two hours later.

Foreman Fatally Injured.

Bryan, Tex., Aug. 5.—While unloading a car of ties William Davidson, section foreman on the Houston and Texas Central, below College Station, was fatally injured by a number of ties falling upon him. He died as the result of internal hemorrhages.

Shot an Actress and Himself.

Omaha, Aug. 5.—Mrs. Millie Light-hawk, an actress, known as Millie Allen, was shot and fatally wounded at a Capitol avenue boarding house Sunday by Thad Brookie, a paper hanger, who then shot himself dead. Brookie had been much in love with Mrs. Light-hawk, who had refused to accept his attentions.

Archbishop Keane Returns.

New York, Aug. 4.—Archbishop Keane, of Dubuque, former rector of the Catholic university, who received his new dignity in Rome in April arrived on the steamship Celtic Sunday and went to the Fifth Avenue hotel where he had a long talk with Archbishop Ireland and later left for Chicago.

Smallpox Stamped Out.

Groeville, Tex., Aug. 5.—The two negroes who were sick with smallpox at Neyland have been released, and for the first time in several months' there are no other cases in the county, the disease having been completely stamped out.

Negro Kills an Officer.

Charlotte, N. C., Aug. 5.—A special from Shelby, N. C., says that Chief of Police Jones of that place was shot and

killed by Jim Lowery, a negro, while attempting the arrest of Lowery. The charge against Lowery was selling whisky without license.

Mistake in Cotton Report.

New York, Aug. 5.—In the special report of the Journal of Commerce on the condition of cotton sent out July 31 an error made it appear that the decline was 17 points instead of 1.7, as given by the Journal of Commerce; 1.7 points decline is the correct figure.

AN INSANE MAN.

He Kills One Person, Wounds Another and Himself Is Killed.

Moscow, Ida., Aug. 5.—Dr. W. W. Watkins was shot and instantly killed here Sunday while riding in his buggy in the streets of Moscow; George Creighton, a prominent merchant, was shot through the arm and Deputy Sheriff Cool was shot in the shoulder and thigh by A. Steffen, a resident of Moscow, who, it is believed, became suddenly insane. Steffen was afterward killed.

Steffen was on horseback when he shot Watkins and Creighton. He was at once pursued by the deputy sheriff who gathered a large posse. As he neared his house about two miles southeast of town his horse was shot from under him. Steffen took refuge in his house, which was immediately surrounded. Here, armed with a rifle, he kept them at a distance. The posse kept growing in numbers and increasing their armament and a fusillade was kept up from every side of the structure, the posse hiding in a wheat field.

Steffen would occasionally appear at the windows, fire a shot and disappear. About 11 o'clock he appeared at the kitchen window, evidently intending to pick off some one in a party of four who had crawled up to an advanced position. A volley from rifles killed him instantly.

Victory for Independent Phones.

Aurora, Ill., Aug. 5.—A supreme effort of the Chicago Telephone company to crush out all opposition and hold the field to itself by seeking to enjoin any other company from erecting poles and stringing wires in any streets already occupied by the Chicago company was defeated when Judge George W. Brown, of the Kane county circuit court, announced his decision dissolving the injunction secured more than a year ago by the Chicago company. The case is the first of its kind to be tried in this county and will have effect wherever the Bell lessees and the independent companies come into opposition.

Two Trainmen Killed.

Lockport, N. Y., Aug. 5.—A Pan-American special, heavily loaded and a regular passenger train collided a few miles east of this city Sunday on the New York Central. Thomas Hyland, an engineer, and George Webb, a trainman, were killed and a fireman was severely injured. The passengers on both trains were thrown into a panic by the shock, but none were seriously injured. A mistake in carrying out meeting orders caused the collision.

Packing Plant Burned.

Dallas, Aug. 5.—The plant of the Max Hahn Packing company, valued with its contents at about \$60,000, was destroyed by fire Sunday night. Nolan Brothers, wholesale butchers, also lost a large quantity of dressed meat in the fire. The packinghouse was situated on the line of the Missouri, Kansas and Texas railway outside of the fire limits of the city. The packery was a model plant and insured for about one-third of the loss.

Invaders Defeated.

Caracas, Venezuela, Aug. 5.—The Venezuela government announces that a force of invaders under General Rangel Gardias, including 22 battalions of the Colombian army, was repulsed by the government troops and compelled to fall back across the frontier after 28 hours fighting on July 28 and 29. It is officially asserted that the invaders lost 900 men, the government troops losing 300.

Three Towns Occupied.

Manila, Aug. 5.—The towns of Calapan, Namjan and Pola on the northeast coast of the island of Mindanao, were occupied by a battalion of the Thirtieth volunteer infantry and Macabees scouts after a slight resistance. The insurgent numbering 250 fled into the interior. Their commander, Howard, who is a deserter, is hiding in the mountains and the Americans are in pursuit.

Through a Bridge.

West Superior, Wis., Aug. 5.—The first ore train over the new Stonybrook cutoff of the Eastern Minnesota railway went through the bridge over the St. Louis river just above Stonybrook Sunday. Jerry Orrill, head brakemen, was killed and four trainmen were seriously hurt. The engine and 16 cars went through the bridge into the St. Louis river.

Ex-Congressman Blount Ill.

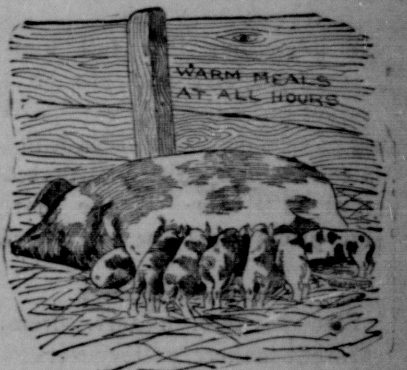

Macon, Ga., Aug. 5.—News has been received in this city that ex-Congressman J. H. Blount, who represented this district in congress for 20 years and who was sent to Hawaii by President Cleveland as commissioner at the time of the revolution in the island, had suffered a stroke of paralysis and is in a critical condition at his country home.

Good roads are worth more to
any county or town than a rail-
road, if it has one railroad to begin
with.—Huntsville Post.

Wonder how many sets of Mad-
ison county baby triplets will be
at the reunion. Hardly more than
three sets, we suppose.—Meteor.

How many would it take to sat-
isfy you, Mr. Turner?

The strikers are now organizing
military companies in the West
Virginia manufacturing centers,
and propose to protect property
from mob violence. This is some-
thing new in strike history, and
may turn out to be dangerous.

There will be a very good acre-
age in onions this fall and if
planted properly and put on the
market early the crop will prove a
big paying one. The idea is to get
on the market early. Late crops
get the little end of the market
and prices are low.—Huntsville
Post.

Steel workers, miners, firemen,
garment makers, pottery workmen,
cigar makers, streetcar employees,
and a few other minor divisions of
working people all striking at
once. It looks like this year will
be a record-breaker yet. And the
end is not in sight. It may be
that it has hardly begun.

The railroad commission is in
the middle of one of the liveliest
contests ever fought out before it
in the way of ratemaking. This
is the controversy over oil rates.
The lignite miners and the rail-
road managers are fighting any
reduction in rates, while the oil
producers and fuel consumers are
pulling for a reduction. Ex-At-
torney-General Crane appears in
the interest of reducing oil rates.
General Crane says Texas will be
the greatest manufacturing state
in the union in ten years from
now if oil rates can be reduced.

NEEDS OF MANILA.

Electric Cars and Lights and American
Stores Could Do Well.

New York, Aug. 5.—Manila is a city
of 250,000 persons, with practically no
street car service. An electric street
car line and lighting plant, an Amer-
ican department store, handling Amer-
ican goods, and a good hotel are the
city's most crying needs at present, and
all of these enterprises would pay enor-
mous profits. Nor, contrary to the pre-
vailing impression, is there any hin-
drance to the formation of stock com-
panies to do business in the Philippines,
says the Manila correspondent of Tri-
bune. The following is an extract from
an opinion on this subject by the lead-
ing attorneys at Manila:

"We are of the opinion that a corpo-
ration duly organized in any of the
states of the United States in accord-
ance with the laws of such state, can
engage here in the business authorized
in its articles (such articles should pro-
vide for the operation of the corpora-
tion in the Philippines) and that such
corporation would have the undoubted
right to acquire and hold property of
all descriptions, including real estate in
the Philippine islands."

BEYOND CONTROL.

Jersey Mines in Pennsylvania Will Be
Given up to the Flames.

Wilkesbarre, Aug. 5.—The Delaware,
Lackawanna and Western Coal com-
pany will probably have to abandon its
Jersey mine at Plymouth to the fierce
fire which has raged in it for months.
The loss will be several hundred thou-
sand dollars. Although skillful fire
fighters have endeavored to stop the
spread of the fire, they have been driven
back. They are now compelled to work
from the outside, and are doing little
good.

It is practically impossible to flood the
mine, because it is on a high level on
the mountain side, while connected
with it, and on the lower levels of the
valley below, are the Nottingham, Avon-
dale and No. 6 collieries, all of which
would have to be filled with water be-
fore the fire in the mountain levels of
the Jersey could be reached. This would
involve a loss as great as the value of
the Jersey mine. The fire will be al-
lowed to burn itself out. This will
probably take 50 years.

TARIFF LEGISLATION.

Senator Cullom Says Congress Will Not
Take up This Subject.

Chicago, Aug. 5.—After a visit to
President McKinley at Canton, Senator
Cullom says there is not likely to be any
general tariff legislation next winter,
but some of the pending commercial
treaties ought to pass the senate. The
senator also talked of the government
policy in other lines. Senator Cullom
returned home Sunday evening and
went at once to Highland Park, where
he is spending the summer. Speaking
of the action likely to be taken by con-
gress next session, Senator Cullom said:
"We shall have to enact some legisla-
tion regarding the Philippines, but not
much I think. Porto Rico is now all
disposed of and there is nothing to do
for it. As far as Cuba is concerned, it
has accepted the American proposals
and we have nothing more to do than
to let it alone and allow it to work out
its own salvation. From all information
I can get final annexation to this
country will grow stronger and stronger
as Cubans find their neighbors in Porto
Rico enjoying the benefits of free trade
with this country, which they are de-
barred from."

Water-Pierce Affidavit.

Austin, Aug. 5.—The secretary of
state received the anti-trust affidavit of
the Waters-Pierce Oil company, duly
executed on July 3. With the affidavit
was a letter from J. B. Johnson, its
general attorney, stating that it was
clearly an oversight. The letter and af-
fidavit were transmitted to Attorney
General Bell. That official is out of the
city and no action will be taken until
he returns. It is believed the matter
will be amicably settled.

The Celtic's Maiden Trip.

New York, Aug. 5.—The biggest ship
in the world, the Celtic, of the White
Star line, reached her dock here Sunday
on her maiden voyage. Her time from
Liverpool was 8 days and 46 minutes.
As she is berthed her steerage deck is
higher than the entrance to the pier.
After she was warped in the iron doors
aft the cabin had to be opened to land
the passengers. The sundeck towers
above the roof of the piers. Three hun-
dred and forty-five cabin and 268 steer-
age passengers came over on the Celtic.

Negro Electrocutted.

Ossining, N. Y., Aug. 5.—Benjamin
Pugh, the negro who murdered John
Tiegar, a waiter in a restaurant
in Brooklyn, on Aug. 30 last year,
was put to death in an electric chair in
Sing Sing prison today. Three shocks
were administered before he was pro-
nounced dead.

NEWS IN BRIEF.

British torpedo boat destroyer Viper
ran upon a rock in the English channel
and completely wrecked. No lives lost.
Newton Lanier of Fort Mill, S. C.,
was drugged and robbed at Charlotte,
N. C. He died from the effect of the
knock out drops.

Mrs. Dick Chatham died at Gaines-
ville, Ga., of hydrophobia. She was bit-
ten by a pet dog.

John T. Isonogle, a veteran of the
civil war, died Saturday at his home at
Lincoln, Ill., aged 66 years.

LaFayette Sweet, aged 77 years, was
killed by a train at Litchfield, Ill.,
while crossing the Wabash railroad.

ATE DEAD COMPANION.

Horrible Tale of the Fate of Four Min-
ers in Alaska.

Port Townsend, Wash., Aug. 5.—A
story of death from starvation in the
Agiapuk mining district was brought
from Nome by passengers on steamer
Centennial, and as a result of 43 days
of unparalleled hardship Geo. Dean, a
miner, is dead, and his two companions
Jack Houston and Joseph C. Thiery, are
at death's door. Houston will probably
recover, but there is little hope that
Thiery's life will be saved.

Added to the story of starvation is a
horrible tale that in their desperation
Houston and Thiery severed the thigh
of their dead companion from his body
and were cooking it when help arrived
and saved them from practicing canni-
balism.

The men had been in Good Hope coun-
try prospecting. On June 7 they start-
ed for Nome by way of Agiapuk river.
Before they reached Teller City provi-
sions gave out and hunger compelled
them to eat grass, birds' eggs and any-
thing they could find. Dean left a let-
ter partly written bidding his family,
who lived in Canton, O., farewell.
Thiery was from Davenport, Ia., and
Houston was formerly mate on the Yu-
kon river boat Sovereign.

FEUD IN WYOMING.

Another Man Shot Down and the Coun-
try Is Much Excited.

Cheyenne, Wyo., Aug. 5.—Another
scene has been enacted in the feud
which has for its participants certain
residents in the neighborhood of Iron
Mountain. Nels P. Nickel was brought
to the hospital in this city suffering
from three gunshot wounds, the result of
an attack, he says, make upon him in
his alfalfa field. He says three men be-
gan shooting at him as he was walking
along, and being unarmed he turned
and fled. During his retreat more than
a dozen shots were fired at him, three
of which took effect, and as he neared
his home, fell to the ground exhausted.
His brother-in-law, hearing his calls for
help, came to where he lay and carried
him into the house. Nickel was then
brought to Cheyenne and placed in a
hospital. He is in a serious condition.

He charges three neighbors of the
same family with the assault and war-
rants have been issued for their arrest.
A posse will serve them and, contem-
plating a stubborn resistance, are pre-
paring to go well armed. Much excite-
ment prevails over the affair.

Three weeks ago the 14-year-old son
of Nels Nickel was assaulted while going
from his ranch home to Iron Mountain.

Long Electric Line.

New York, Aug. 5.—Steps have been
taken to build a through trolley line
from this city to Boston. The first step
was the foundation at White Plains, N.
Y., of the New York and Stamford rail-
way company, which is made of the
consolidation of the Richmond and Port
Chester Electric company. The compa-
ny is now building the road to Green-
wich, and as soon as the line is com-
pleted the road will be extended to
Stamford and to Boston. The applica-
tion of the New York and Stamford
Railway company for the right of way
for an electric road service with the ter-
minal in Boston is expected to come up
at once before the New York state rail-
road commission.

Fight Against Gambling.

New York, Aug. 5.—There is much
speculation going on regarding the out-
come of the fight against gambling, says
the Saratoga correspondent of The
World. The arrest of Richard A. Can-
field, proprietor of the famous club
house at Saratoga, is looked upon as the
beginning of the long threatened attack
of the poolroom men against the club
houses. The closing up of a poolroom
by local authorities is regarded as the
direct cause of the fight against Can-
field and his club house. It is announced
the pool men will spend \$50,000 to stop
gambling at Saratoga unless the pool
rooms are permitted to be kept open.

British Soldiers Not Paid.

London, Aug. 5.—There cannot be
any doubt that in several instances sol-
diers who have returned from the war
have not yet received full pay for their
services and it is probable that much
hardship has been occasioned by the dil-
atoriness of the war office authorities in
this respect. Mr. Broderick has ex-
pressed his regret that there should
have been lack of promptness in set-
tling the claims of returned troops, but
he is powerless in the hands of perma-
nent officials. He has, however, suc-
ceeded in appointing a commission, with
the object of examining all claims and
the sooner it gets to work the better for
the government.

Rain About Dallas.

Dallas, Aug. 5.—The first rain of
much consequence in Dallas and vicinity
since last May fell this morning. The
rainfall appears to have been general
over an area extending approximately
100 miles in all directions from this
city except southward, where the dis-
tance reached was about 50 miles. This
section of the great cotton belt has had
the least rain this season and the drouth
has been most severe. Much good is
hoped for.

Tired of Life.

New York, Aug. 5.—Louis Helpen, a
young man who about three months
ago tried to jump from the Brooklyn
bridge, committed suicide by swallow-
ing carbolic acid and then throwing
himself from the fourth story of a ten-
ement house. Young Helpen came to
this country about 18 months ago from
Johannesburg, South Africa. In his
room he left a note saying he was tired
of life.

Health and Beauty

For generations women have been
taught that "beauty is only skin deep,"
but, like many proverbs, that will not stand.
Beauty is blood deep. There can be no
beauty without health. Our grandmothers
lived closer to nature than we do, and they
were so sheltered by their home life that
health and beauty were theirs naturally.
Skin foods, freckle lotions and face bleaches
were unknown commodities. But there has
been a great change in the life of women
since then. With broader education and
larger opportunities, she has developed
mentally at the expense of her health. From
the quiet duties of home she has gone forth
until now we find her in many avocations of
life, which prove too great a tax on her
vitality. How sad it is to see the cheek
robbed of its color and the eyes of fire.
These symptoms nearly always show de-
rangements in the delicate feminine or-
ganism. They don't call for bleaches or pain-
ful powders, but for a remedy that will make
the afflicted organs strong and well. Wine
of Cardui is just such a remedy. Women
broken in health and spirit have been made
healthy and happy by this Wine. No one
should give up to the "blues" until this reliable remedy has been tried. It brings that
buoyancy of spirit, elasticity of step and lightness of heart which is the corner
stone of beauty. A healthy woman is always beautiful.

I feel that I must say a few words in praise of the Ladies' greatest friend,
Wine of Cardui. It is the most wonderful remedy that I ever tried. I have been a
sufferer for years, at times being confined to my bed two or three days each month.
A friend recommended Wine of Cardui, and since I have taken it I have been
greatly relieved. I intend to continue to take it, for I know it is as recommended.
I will use every effort to get others to use it.

Where do You Get Off?

It is a wise thing to know when to get off a train, but prudence would suggest that you get off when the train is standing still, as you would no doubt be worth more to your family by doing so.

Now let us help you to decide where to get off. If you are preparing to take your summer vacation, why not get off at Galveston, La Porte, Seabrook or Port Lavaca. Our trains all stop at Houston and make close connections with G. H. & N. and N. Y. T. & M. railways for points mentioned, and with the San Antonio and Aransas Pass Railway for Rockport, Corpus Christi and Aransas Pass.

All the hotels at these points are modern in their appointments and you will find the surf bathing, boating and fishing, just what you need in the way of relaxation. Local Agents of the Houston & Texas Central Railroad will be glad to quote you rates, or you should write to

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Mr. and Mrs. John B. Hines and their baby, which has been dangerously ill, returned from Greenville Saturday night accompanied by Mr. and Mrs. J. T. Hines and Dr. H. L. Fountain. The little one was reported better yesterday. The Eagle is glad to report that Mr. John B. Hines has returned with his family to make his home in Bryan again. He will assume his former position as bookkeeper for the Bryan Oil and Cotton Company.

Prof. Davis of the summer normal faculty called attention yesterday to an error of the Eagle in accidentally omitting the name of Dr. J. L. Fountain from the list of those mentioned in the resolutions of thanks adopted by the normal. Dr. Fountain's lectures and demonstrations by means of his X-ray machine were much appreciated by the teachers.

Mr. Claude V. Birkhead of Waco, appointed receiver for the R. J. AUSTIN BANK CLOSED

The First National in the Hands of a Bank Examiner.

STATE DEPOSITORY.

The State Treasurer and Secretary of State Kept Deposits in That Institution—No Statement of Assets and Liabilities.

Austin, Aug. 5.—As a result of the failure of the First National bank here yesterday afternoon, the private banking firm of James H. Raymond & Co., suspended payments this morning. The institution is closely identified with the First National and was badly crippled on account of the suspension of the First National.

State Treasurer Robbins states that the treasury department had over \$300,000 in cash and securities in the First National bank and last Saturday the bank turned over \$32,000 to the state treasury. Mr. Robbins had no idea the bank was on the brink of a financial disaster. He made application at the bank for a condition of affairs, but J. M. Logan, the inspector who is in charge, declined to give out anything. Robbins' bond of \$75,000 and his bondsmen are liable for any shortage that may result to the state.

The state department has about \$50,000 on deposit and Secretary of State Tod's bond of \$25,000 is also liable.

The attempted suicide of H. Pfafflin, cashier of the defunct bank, has added much to the condition of affairs. He cut his wrists with a razor.

Austin, Aug. 5.—The following type-written notice was posted on the door of the First National bank here at 4 p. m. Sunday:

"This bank is closed and is in my hands as agents pending the arrival of William Lyrikes, special examiner, who has been appointed temporary receiver by the comptroller of currency.

"J. M. Logan,
"National Bank Examiner."

The news of the posting of this notice quickly spread and many flocked to the bank and read it for themselves. Very little can be learned as to the condition of the bank.

W. B. Wortham, former state treasurer, who is president of the institution, left here two weeks ago for New York City and has not yet returned. H. Pfafflin, the cashier, has been at home sick for several days.

Bank Examiner Logan declines to make a public statement concerning the bank's affairs at this time. There are a number of rumors in circulation, but none have as yet been verified.

The bank was the depository of the state treasurer and secretary of state. Treasurer John W. Robbins declined to state the amount the state had on deposit, but it is not thought to be large. It is said that there is about \$400,000 available with which to pay depositors.

First National Reported Insolvent.
Washington, Aug. 5.—The comptroller of currency has appointed Special Examiner W. L. Zerkes receiver of the First National bank of Austin, Tex. The bank was closed upon report of National Bank Examiner J. M. Logan, who reported it insolvent.

Condition of Cotton.
Washington, Aug. 5.—The monthly report of the statistical department of agriculture shows the average condition of cotton on July 25 to have been 77.2, compared with 81.1 June 25, 76 on Aug. 1, 1900, 84 on Aug. 1, 1899, and a ten-year average of 84. There was improvement of conditions during July amounting to 6 points in Georgia, 5 points in South Carolina, 2 in Alabama and Mississippi and 8 in Virginia. On the other hand, there was a decline of 19 points in Missouri, 15 in Arkansas and Tennessee, 13 in Oklahoma and Indian Territory, 12 in Texas, 7 in Florida, 4 in North Carolina and 2 in Louisiana.

Situation at San Francisco.
San Francisco, Aug. 5.—Whether the local labor trouble is to be terminated or whether it is to be extended to other unions and possibly to other coast cities will be determined in a day or two. The directors of the Employers' association are to meet then and decide on their final position. Should they decide to make no concessions the union leaders assert that they will issue orders for extreme measures.

Killed by an Electric Car.
Montgomery, Ala., Aug. 5.—Miss Caroline Jones, daughter of ex-Governor Thomas G. Jones, was ground to death in a street car accident here. Gov. Jones was a helpless witness to her death. Miss Jones had left her father on the veranda of their home and had started across the street and in crossing the car track was struck by a car and dragged to death under the wheels.

Boer Commandant Shot.
Bloemfontein, Aug. 5.—Commandant Fromeman, son of Commandant Fromeman, who it is alleged, shot a peace envoy named Morgendael, has been shot and killed near Winburg after an exciting chase. Important papers were found in his pockets.

The British captured a Boer envoy of 70 wagons near Boshoff, Orange River Colony.

Empress Frederick Dead.
Cronberg, Aug. 5.—Empress Frederick died this morning after a long illness.

FIGHT TO A FINISH.

Union Workmen and Steel Corporation in a Bitter Struggle.

Pittsburg, Aug. 5.—It is now a fight to a finish between the billion-dollar steel trust and organized labor. Mr. Shaffer says he is ready to employ every peaceable means within the power of man to win a victory. No quarter is to be given and none will be asked. The entire management of the battle has been placed in the hands of President Shaffer. He has absolute power to call out every man who is connected with the Amalgamation association and he intends to do it. He is satisfied with the progress of the fight to date.

President Shaffer, of the Amalgamated Association of Iron, Steel and Tin workers, upon his return Sunday night from the fruitless conference with J. Pierpont Morgan and others in New York, said:

"Within a week every union man and every union man at heart in the employ of the United States Steel Corporation will be asked to join in the strike now being waged by the Amalgamated association. We must settle whether unionism is to stand or fall.

"There will be no more conferences with the United States Steel Corporation unless the meeting is asked for by the officials of the corporation. The Amalgamated association will not request a peace meeting."

"It will be a fight to a finish. No quarter will be given. We are prepared to spend all the money and time necessary to wipe out Amalgamated Association in all our mills."

This was the message that came over the wires from New York to local officials of the United States Steel Corporation here. Two messages came. The first stated that the conference had adjourned between the workers and Mr. Morgan and after receiving his ultimate decision in the matter in dispute. An hour after this time a second message came to Pittsburg announcing to the steel officials here that the executive board had decided that they would not accept Mr. Morgan's terms.

The second message contained the statement also that appears above. Some of the officials heard the message with misgivings, others with unconcealed satisfaction. One of the officials left his office declaring he was glad of it. The fight would surely be carried to a finish and the corporation would once for all be freed from the influence of the union men.

SPECULATION RIFE

The Next Turn in the Strike Is Watched With Much Interest.

Pittsburg, Aug. 5.—Now that the suspense induced by the uncertainty of the outcome in the strike negotiations is over, there is less excitement here than last week and looking matters squarely in the face. Speculation is now rife as to when President Shaffer will issue an order for a general strike of all the Amalgamated men employed in the mills of the United States Steel Corporation. Doubt is expressed in some quarters if the strike will spread further. It is suggested that the employees of the Federal Steel company, the National Steel company and the National Tube company are at the present the strikers' main source of revenue and to call them out would weaken the association in the fight by depriving it of funds necessary to carry on the struggle. Another reason given was that the Amalgamation association having signed contracts with all these companies for one year beginning with July 1, 1901, would, by violating these contracts, give Morgan and his associates trump cards they would not hesitate to use to the best advantage.

An intimation has been made there is still hope of ending the strike soon, and this is by the return of men at Painter, Lindsay and McCutcheon and Clark mills. These mills were non-union last year. The men went out when the strike was ordered and they are now members of the Amalgamated association in efforts to secure an adjustment of the strike, however, their status has been an embarrassing factor. It is said if these men desire to go to work they see no objection by the association. The immediate effect will be to eliminate them from consideration of any basis of settlement. Such a course would leave the Amalgamated officials in a position to accept Morgan's terms with honor.

The strike, though but begun, is already being felt in Pittsburg. Many leading business houses have found business dropping off so as to make the dismissal of clerks imperative. One department store last Saturday laid off 25 girls and at the same time gave notice that if the strike was not settled by next Saturday it likely would be necessary to lay off more. Finances have also suffered. On two days last week the clearing house reports showed a decrease compared with last year. There were only two days of the year whose clearings did not exceed figures of corresponding day's last year.

Organizing Military Branch.

Wheeling, W. Va., Aug. 5.—The organization of the first military company by a labor organization was put under way Saturday night by Crescent lodge, Amalgamated association and so popular is the plan that the members of labor unions by the hundred are discussing it favorably, and the indications are that a very large percentage of Wheeling's union labor will soon be under military discipline. The two full companies formed in Crescent lodge will not be in any way controlled by the state, but will be as independent as are military companies of secret and religious organizations.
